## About This Content

HORSE ARMOR DLC brings new found security to the heroes of ARELITE CORE, by providing exactly what it promises: horse armor. Become more than a man (or a woman, or a madox, or a holarii), become a half-horse hero as you don the legendary garment. None shall dare even question your heroism once you have taken (half) the form of a mighty steed.

The Horse Armor DLC drops 99 copies of the titular relic in the player's inventory, which when worn will increase endurance and reaction stats, as well as provide the hero with a horse mask during the adventure. Gamers can stop horsin' around, and soothe those hoarse voices, because this DLC Does Life Correctly.

## Key features

- Unique horse armor for every playable character
- Automatically added to New and saved games
- Garment adds a small stat boost
- It's horse armor, what more do you need!
